# MASTERBOX NR400

MCB-NR400-KG5N-S00 / MCB-NR400-KGNN-S00

## FORM & FUNCTION STREAMLINED

### FEATURES

**Minimalistic Mesh Design** - Elegant design elements are applied to mesh for optimal thermal performance.

**Optimal Thermal Performance** - The full mesh front panel and ventilated top panel provide a high potential for thermal performance.

**Flush Tempered Glass Side Panel Design** - The tempered glass side panel, fastened by thumbscrews on the rear panel, keeps the surface flush and unobstructed.

**Graphics Card Support Up To 346mm** - Generous clearance space is provided to support the latest graphics cards.

**With/Without ODD Support** - Depending on preference, an ODD version of the chassis is available. If an ODD is not preferred, a cleaner appearance and more cooling options on the top and front panels are supported.

**Headset Jack** - The single 4 pole headset jack features both audio and microphone capabilities simultaneously so that separate jacks are not needed.

**Cable Management** - High quality rubber grommets are paired with 22mm of clearance behind the motherboard to offer ample room for cable management.

The **MasterBox NR400** applies optimal cooling and expandability to a minimalistic, subtle design. With thermal capability at the forefront of features, the front panel and top panel are designed to signify airflow performance in its purest form.

Functionality is blended to a compact design by maximizing use of internal space and implementing subtle design elements. The MasterBox NR400 features a tempered glass side panel, fastened by thumbscrews on the rear panel, to keep the surface immaculately flush.
